

COSTA RICA. Coriport SA, the concessionaire for the airport development project at Daniel Oduber Quiros International Airport (LIR), has land available for commercial development, and is seeking expressions of interest (EOIs) for long-term leasing opportunities.

The property is currently the location of the LIR passenger terminal building (PTB), and located just west of the site of the new constructed PTB, currently under construction.

The land will become available concurrently with the opening of the new passenger terminal building (PTB) in August 2011.
